

Ohio Partners for Cancer Control
Making Cancer history for all Ohioans.

Tools for Survivors

Ohio Partners in Cancer Control has developed two tools to help you find resources and information you need to help track your treatment

Cancer Survivorship Resource Guide

This guide is a listing of local, state and national resources that can provide you with reliable cancer information and support.

Cancer Survivorship Care Plan

The Cancer Survivorship Care Plan is a summary of basic information about your cancer diagnosis, treatment and follow-up care. You and your health care provider can use this tool to help keep track of your treatment and to share with other health care providers in the future.

Cancer Survivorship Next Steps

- Call Ohio Partners for Cancer Control at 1-888-227-6446 ext. 8401 to request copies of the resource guide or care plan.
- Visit the Ohio Partners for Cancer Control website at www.ohiocancercontrol.org to download copies of the resource guide or care plan.
- For more information contact OPCC at 1-888-227-6446 ext. 8401.

In 2000, Ohio Cancer Partners for Cancer Control was established to reduce the cancer burden in Ohio through a collaborative and comprehensive approach with specific goals that focus on Primary Prevention, Early Detection, Treatment and Care, Research and Clinical Trials, Palliation and Quality of Life, Survivorship and Data and Surveillance.
